### **TEACHING INTERESTS:**

Mr. Heald's teaching centers on integrating students with intellectual and developmental disabilities into inclusive settings through applied emerging technologies and strategic career development. Within the EXCEL program, he leads initiatives in AI literacy, transition planning and career curriculum design to ensure students are tech-ready for the modern workforce. His work bridges the gap between the classroom and the community by driving career readiness, internship placement, and sustainable job opportunities, ultimately empowering students to achieve professional success and independent living.
